

## **HERITAGE:**

- HR1. Try to develop greater sense of ownership and pride in the Village e.g. plaques with historic notes and explanations.
- HR2. Share history of Village with others (increase ways)
- HR3. Refurbishment of Fore Streets gutter
- HR4. Heritage protection should feature as a major consideration within all proposed plans.
- HR5. Evidence needs to be well researched and detailed
- HR6. More information about heritage of the Village needed
- HR7. Heritage must be preserved
- HR8. Decent website for Village history
- HR9. Better interpretation of Village history display boards etc.
- HR10. More pride in Village history
- HR11. More could be made of Silverton's rich history and existence of many old houses including the Parish Church. It is a Village to be proud of.
- HR12. Take pride in our Parish Church and help preserve it by using it better and providing funds
- HR13. Establish Friends of Silverton to build on work of litter picking and tidy verges, weeds etc
- HR14. Heritage must be protected against further development
- HR15. Litter and dog mess
- HR16. Crack down on litter instil pride in our kids
- HR17. We have to preserve the Village listed in the Domesday Book for further generations
- HR18. Keep old paths etc in good order e.g. old cobbled path from end of Church Road down New Barn Lane
- HR19. Important to maintain, and increase awareness of Silverton heritage especially among the young and new families to the Village. Also avoid damaging it with large development.
- EN23. Silverton is still a pleasant rural community which still features the traditional character and "feeling" of a typical Mid Devon village. This is what we like and this why we live here. Certain individuals and groups push them forward to the detriment of the village as a nice place to live.
- EN30. Planning rules to safeguard village life. Conservation areas and agricultural land needs to be maintained. In particular, efforts should be made to maintain the ancient turnpike

route. The approaches into the Berry and the Square are to a large extent intact e.g.: deep Devon lanes with high hedgerows. The same is largely true of old Butterleigh Road. This is a precious legacy.
