

What? Why?

In order to give Silvertown and Ellerhayes residents more say in planning matters and the future development of the parish, Silvertown Parish Council passed a resolution to set up a Neighbourhood Planning Group. The Parish of Silvertown is now designated as a neighbourhood planning area. The Government provided a grant to enable us to employ a consultant. With his help and the hard work of a group of stalwart volunteers we are now able to present these aims and objectives to you. This is a genuine consultation event, every single comment will be analysed by the group. **Every comment counts!**

In June we sent letters to every home in the parish informing them that we were going to run two consultation events in order to find out the issues that concern people living in the parish. All the comments from those events have now been analysed and a workshop was held to draw together the main themes that emerged.

Today, is your chance to consider those aims and objectives and to agree or disagree with our findings. **Please take the time to express your views.**
