Risk Management Assessment Form – Working from Home

This document has been produced to enable the Parish Council to assess the risks that it faces and to demonstrate that adequate steps have been taken to minimise such risks. The Council is aware that although risks cannot be fully eliminated it has a strategy in place that provides a structured and focused approach to managing risk.

Risk is defined as something that will affect the Council's ability to achieve its objectives and meet its duties. Risk Management is a tool by which these risks can be identified and controlled.
