SportEngland

Sports clubs, local authorities, schools and community organisations can apply for grants of between £1,000 and £150,000 to enhance local sports and recreational facilities.

The funding which is being provided through Sport England’s Community Asset Fund can be used to enhance traditional sports facilities as well as outdoor spaces like canal towpaths, woodlands and open spaces; etc that can be used as part of an active lifestyle.

Statutory bodies and education establishments will specifically need to: ~Provide a minimum of pound-for-pound partnership funding; ~Demonstrate the strategic need for their project proportionate to the scale of investment requested; ~Limit requests to a maximum of £150,000 within any 12-month period.

Sport England typically expect their awards to be either:

Small-scale investments typically ranging from £1,000 to £15,000. These will address emergency works due to something like storm or flood damage, or something totally unexpected that is stopping people from being able to stay active right now.

Medium-scale investments typically ranging from between £15,000 to £50,000. These will address more substantial changes. This might be an upgrade to an existing facility or developing a new space in the community.

By exception, Sport England will consider larger investments ranging from £50,000 to £150,000. This will be when organisations can demonstrate a considerable impact or are targeting under-represented groups. They are also unlikely to have received funding from Sport England previously.

Applications can be submitted at any time.

Allen Lane Foundation

Social Cohesion Programme, provides funding to support local communities in breaking down barriers and reduce tensions between different groups of people, and help to build a more cohesive and inclusive community. The aim of the funding is to:

- Proactively work towards building better community cohesion and trust, and encouraging respect and understanding in the local area
- Proactively promote the inclusion of marginalised groups and individuals in the life of the local community
- Fund work which breaks down barriers and tensions in the local community thereby reducing feelings of division and “them and us”.

The Foundation is seeking applications from community-led grassroots groups and organisations which have a focus of work being at a very local/community level, which could be a housing estate or distinct community. The Foundation is particularly concerned about divisions in communities that occurred around the 2016 Referendum and subsequently.

Applications will be particularly encouraged from areas of high deprivation but not exclusively and the Foundation is keen to support communities in coming up with their own solutions to local issues of division. New initiatives, those that may have been tried before or are on-going, are considered as long as the work has lasting benefits for those people the projects are aimed at.

No minimum or maximum grant levels are published. In 2018, of the 153 grants awarded 112 were single grants with the remainder being for two or three years. The majority ranged from £750 to £15,000 with recipients including:

- Shelley Over 60's Club – £4,000
- South Tyneside Prison Matters – £1,000
- Manchester Refuge Support network – £9,935
