### **CONTENT OF THE WEBSITE**

- The Website shall contain material that arises from Council business such as agendas and minutes, policies, factual information about the Council and Councillors. It may also include any material that has been commissioned by the Council such as reports or surveys or material that is directly derived from these.
- The Website may also contain other material, such as history and geography of the Parish, news of local events, or any other material of a non-controversial nature which is appropriate for the Website on a “custom and practice” basis. The Website may also possess interactive functionality, customary for such local authority websites (such as questionnaires, visitor response facilities, links to other sites etc). The footprint of the Website may change from time to time according to requirements and circumstances, subject to approval by Council for significant changes

- The Website shall in principle not contain material of a deliberately contentious, offensive or disputatious nature, or material that criticises or implies criticism of one or more members of the public, individual Councillors, groups of Councillors or the Council as a whole. HOWEVER Council meetings can be disputatious, and this is recorded in the Minutes and, once passed, this material may appear on the Website in the Minutes or otherwise. Additionally it can happen that Council may approve material for inclusion on the Website that not everybody necessarily agrees with.
- Regardless of what has been voted on by Council, the Website shall not contain any material that is libellous or defamatory or in any way against the law or which could expose the Council to legal challenge

This policy will be reviewed annually or earlier if so required by legislation or additional material.
