There is not much space to put any new equipment given the restrictions for football, cricket and mowing.

Generally the Rec are happy with the equipment they have and want to keep it all. However, a Wicksteed brochure has been requested and the Rec will have a look to see if there is anything small that could fit in space available such as a climbing wall

Perhaps we should not apply for S106 items (bench and small table) yet and wait to see if anything else can be identified?

There is £7,725.94 left in the S106 pot after the purchase of the swing.

I would suggest that the Rec go ahead with the item identified as PC MG above and send us the bill when the work is completed.
